- Founder of Kids-n-K9s
- Experienced Child Educator
- In-Demand Dog Trainer
- Passionate Safety Advocate

Lesley Zoromski is a dog-trainer and child educator who's on a mission to make children safer by teaching them the basics of canine body language.

Her passion is driven by a personal understanding of the physical and psychological harm that can result from a dog bite and a desire to share her knowledge of dogs and child education in an effort to reduce their numbers.

Lesley's 15-year teaching career was focused on elementary education where she taught children ages 4 to 8. Since transitioning to the world of dog training in 2003, she has trained literally thousands of dogs and their owners. In 2016, Lesley channeled this passion and unique combination of experience into founding Kids-n-K9s LLC™, a company dedicated to increasing child/dog safety. The first product offering of the company is the learning activity kit, Stop, Look & Paws™.

Almost 5 million dog bites occur annually in the United States, with over half of all victims being children. For Lesley, these are unacceptable statistics.

As an experienced child educator, Lesley recognizes that children learn best with hands on activities that are first and foremost fun. Stop, Look & Paws™ is both an effective learning tool and fun exercise for the whole family.

Lesley has a B.S. in Education from the University of Wisconsin-Madison. She's also an in-demand Bay Area dog trainer who regularly volunteers her time and the use of her own Canine Good Citizen (CGC) dogs in working with local shelters and schools to promote various "Humane Education" programs.

Lesley lives in Petaluma, California with her husband Darrell and the numerous dogs that are lucky enough to call her house their home.

What People Are Saying

Stop, Look and Paws was not only educational for my two sons, ages 4 and 5, they loved playing it! I think it's so important for children to learn dog safety, even if you don't currently have a dog or plan on getting one.

Kelley W.
Mom

As a veterinarian, I know the importance of understanding how to approach dogs to ensure the safety of everyone--dogs, adults and most especially children. This activity is a valuable way to help parents and children size up situations that could otherwise have a disastrous outcome. A better understanding of dog body language allows everyone to feel safer

Sandra N.
Veterinarian

I own a dog that looks cute and that people frequently want to pet. But I feel a great responsibility to help people understand that won't always be the case. To be able to tell folks that there's a family activity that could help everyone be more knowledgeable about interacting with dogs and stay safer would be awesome!"
